Next Webinar on 2 March. Register here: www.eacts.org/educational-events/programme/wicts-webinar
“The WiCTS webinar is a wonderful opportunity to go beyond our surgical profession and at the same time learn fundamental skills that are an absolute must to progress in our job. The focus lays on daily communication, perception of your team and individual career planning... I really enjoy that after few sessions we already created a WiCTS webinar community where nobody wants to miss the next session.” Female delegate from Switzerland

“The Webinar series offers a yet unheard of opportunity to broaden our skillset as the future of cardiothoracic surgeons. The topics discussed were relevant for every aspect of our daily work. They were based upon experiences others have gained and the great scientific background that has risen from it.” Female delegate from Germany
