In Lisbon this year, we are offering our industry partners the opportunity to integrate their training activity within their booth space. This marks the first time that the industry will have the opportunity to organise their own ‘Hands-on’ workshops, incorporating both wet and dry labs, along with various small practice sessions – all conveniently located in one place. These sessions will not form part of the official scientific programme of the Annual Meeting. We recommend that such training is limited to 10-15 pax per session and offered to delegates on an invitation basis.

Notably, at the 37th EACTS Annual Meeting in 2023, 81 companies from 19 countries showcased their offerings across a sprawling 2238 sqm, representing diverse industries associated with cardiothoracic surgery. The Trade Exhibition, centrally positioned in the Centro de Congressos, Lisbon, is near the session rooms, ensuring convenient access for all attendees. Catering areas will be located in both halls.

For further details about the event venue, please refer to the official website: https://ccl.lisbonvenues.pt.

The exhibition is set to take place in Pavilion 1 and Pavilion 2 (Rio Pavilion) promising an engaging and dynamic experience for both exhibitors and attendees.
